

Suspended mount linear down light

The KURTZ represents an architectural suspended linear light which can add a unique presence to your space. With a variety of different options in light output, colour or material, the possibilities are endless.

Installation

Wire suspension via friction locks secured to the luminaire.
Wire suspensions included.

Connection

Connects with 230 V, built-in LED driver.
Cable entry at the top of the luminaire.

Design

Luminaire body integral aluminium with timberP exterior and a micro-prismatic diffuser. The KURTZ can come in a variety of different colours.

Dimming

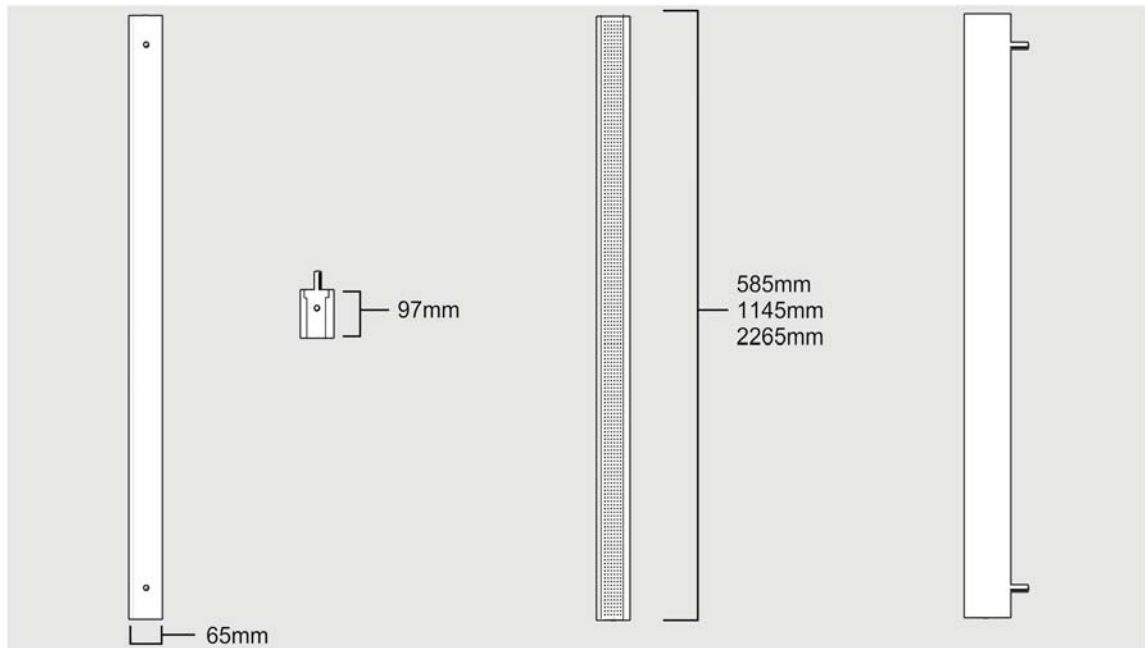

Luminaire equipped with on/off or DSI or DALI

Designed by

Duncan Beard
